# DRAYAGE

BY MARKS LOGISTICS

## SPACE TO STORE

What's better than the best drayage team? One that can store it securely for you as well! Warehouse space is in high demand and you can't afford to be worrying about where to store your goods. Whether you need the whole container or just a few skids stored, we have warehousing space available located strategically throughout the nation to make your Drayage and multi-modal program unbreakable.

## FROM HERE TO THERE

Drayage is great, but a full suite of transportation services is untouchable. Through our two companies, Marks Logistics and TruckCourier, we have just about every transportation solution you could need, including transloading, distribution, and so much more. Learn how we take your drayage program to the next level.

## YOUR DRAYAGE HERO

For more than 93 years Marks Logistics has been moving freight by road, rail, and sea. Since containers were standardized in the early 30's, we have perfected drayage and multimodal services. Almost a century later, our commitment to secure and safe deliveries has not changed. We implicitly understand that GPS tracking, gate activity, and reduced complexity are paramount when evaluating your multi-modal program. For us, these are the foundation. With our history and talented experts (we call them Drayage Heroes) we have been able to add value through activities like foldable containers, transloading, distribution services and low-touch moves. Whether you are looking to be more considered with your green initiatives or decrease your time to destination, our team has solutions you can rely on.

## OUR DIFFERENCE

## ABOUT 28FREIGHT

28Freight operates two business units, **TruckCourier** and **Marks Logistics**. **TruckCourier** is the leader in same-day ground expedite throughout the New England Area. **Marks Logistics** has been moving freight for more than 93 years and now operates across the North American continent serving a vast array of clients utilizing the best partner carrier network in the country.

**POWERFUL ALONE. BETTER TOGETHER.**

### ***TruckCourier***

**TruckCourier**, the leader in ground expedite services throughout the greater New England area, operates within a 500-mile radius of Boston. Whether you need manufactured equipment brought to a sterilization facility in New Jersey and returned, or samples picked up and delivered by the afternoon, **TruckCourier** has the expertise and commitment to your high-value shipments that you require.

**Marks Logistics** has been moving freight across the country for more than 93 years. Our vast network of trusted and compliant partner carriers enables us to be the connector between your labs, offices, and manufacturing sites across the several Biotech hubs in America. And when you need to connect with Canada or Mexico, the same team will partner with the best carriers on the continent to carefully track your shipment from origin to destination.
